

Forecast 5 Installation Checklist

Before beginning your install of Forecast 5, we recommend you run through this check list to ensure that you do not run into any issues.

PERMISSIONS	Admin permissions on computer and SQL server*
PASSWORDS	SA SQL password
ANTI-VIRUS	Temporarily disabled
PREREQUISITE SOFTWARE	.NET Framework 4.5 & SQL server 2008 and greater
SQL SERVER: NEW OR EXISTING	Microsoft SQL Server – Local Db (for single computer license) or Microsoft SQL Server 2008 R2 Express Edition or Greater. Check Server Firewall is configured to allow SQL Server Access (see https://msdn.microsoft.com/en-us/library/ms175043(v=sql.120).aspx)
OPERATING SYSTEM	Windows 8 and higher
FREE HARD DRIVE SPACE	10 GB or higher
SYSTEM MEMORY	8 GB or higher
HARD DISK	SATA 12 HDD @ 10,000 RPM or Greater (for single computer). SSD (for network licenses).
CPU	2.0 GHZ Quad Core or Greater**
SCREEN RESOLUTION	1920 x 1080

Please note the Forecast 5 cannot connect to an existing database and will need to create its own (unless it is a Forecast 5 created database).

** Only relevant in a multi-user environment or when using SQL Server Express and above (Not the default LocalDB)*

*** Please increase this requirement should the machine be hosting the SQL Server also (Not including LocalDB)*
