## Notes to Forecast 5 pricing

Payment of Forecast 5's annual subscription - the Annual License Fee under the Conventional Pricing or the Rental under one of the Rental Packages - is mandatory to continue the use of the software.

This subscription provides you with the following benefits

- Access to all upgrades and updates as released.
- Access to the knowledge base
- Support for system errors

Installation is not included in the Product Price and is chargeable.

[See Support Policy for further information.](#)

### Notes

- 1 **Single computer license:** You can install onto 1 PC with 1 user.
- 2 **Network license:** you can install onto your server, then onto as many PCs in the office as you like but only the number of users purchased can be in the programme at the same time.
- 3 **Forecast 5 Lite License:** Limited to 1 forecast only, no consolidations.
- 4 **Laptop License:** One laptop license available for purchase per full Forecast 5 license.
- 5 **Additional Users:** Can only be added to a Network license.  
You cannot add users to a Single Computer License; you need to migrate up to a Network License first. This will cost the difference in pricing.
- 6 **Administration Pack:** Allows admin user to control users with user groups and allocate forecasts to be viewed or used. Also, allows users. admin users to set the status of a forecast. Recommended if you have 2 or more
- 7 **Rental Packages:** These packages CANNOT be adjusted on a per client basis. If a client requires a specific set of features, then they must **purchase the appropriate package.**
- 8 **Network installations:** Network installations will be supervised by our own Technical Manager to ensure the correct SQL configuration.(minimum 1 hour).  
This service, depending on time and complexity, will be charged at £125/hr
- 9 **Additions:** Additional forecasts and consolidations may be purchased when the original allocation has expired.
